Attention of the Editor

Dear Sir:

We have recently been deluged with letters requesting coin catalogues, and which are the result of an item in your paper. This Society does not issue catalogues, nor does it give information of the kind that you state. I am enclosing a list of coin dealers who issue premium lists, but in passing I should like to add that such lists are of little use if any to those who are ignorant of the subject,- so much depends upon the condition of the coin.

Yours very truly,

Curator.
